Business:	CLEAR LOGISTICS was founded from successfully established CLEAR GROUP with 165 employees. CLEAR LOGISTICS offers unique solution for e- procurement, rate management and logistic controlling as an integrated program without any media disruption – end to end. The strength is the individual adaption of the software to complex company processes. E-logistics platform i-Logic digitizes and optimizes logistical purchasing processes as software-as-a-service and the communication between industry, commerce and carrier. A high level of networking and automation enables a considerable simplification in e-procurement als well as in tender management.
