

CLEAR LOGISTICS

COMPANY PROFILE

CLEAR LOGISTICS is Germany's leading provider of e-logistics applications with the business focus on e-procurement.

The innovative software company is based in Wasserbillig/Luxembourg and also in Dortmund and Erlangen at the CLEAR GROUP. Since its founding in 2015, the expanding company employs 20 people.

In 2016, the e-logistics platform i-Logic was introduced, setting a benchmark in the logistics industry. With i-Logic platform CLEAR LOGISTICS takes a pioneering position in digital integrated tender management and consistently portrays complex purchasing processes in a simple and tailor-made manner. The i-Logic solution provides full purchasing visibility, customization, and automated notifications through efficient interface integration. The cloud-based solution i-Logic is the first logistics intelligence platform for strategic tactical logistics management.

CLEAR LOGISTICS end-to-end solutions are aimed at customers such as freight forwarders, carriers and carriers alike. Well-known customers are already using e-procurement and rate management from CLEAR LOGISTICS to control the virtual purchasing process in a fully digitized manner.

Oriented on the market, CLEAR LOGISTICS is aiming for a significant increase in lanes tendered for 2018 with its innovative i-Logic software.

CLEAR LOGISTICS offers i-Logic platform in a classic white label principle and beyond services in technical implementation, support and execution of tenders, customer care and further support and IT services. This once again affirms its position as the leading logistics innovator in e-procurement and rate management throughout Germany.
